WORKING SHEETS

Decide what belongs in the first release

A worksheet for one customer task and one important assumption

Rupesh Kumar

Choose the task

- [ ] Customer and situation

- [ ] Task this release must support

- [ ] Useful finishing point

Name the assumption

- [ ] What we believe about the customer

- [ ] Evidence we already have

- [ ] What this release should let us learn

Draw a boundary around the flow

- [ ] Step that must work first
- [ ] Next necessary step
- [ ] Step that completes the task

Make the omissions explicit

- [ ] Feature we are leaving out

- [ ] Reason the task can still work without it

- [ ] Condition for adding the feature later

Make the test workable

- [ ] Failure the customer must be able to recover from

- [ ] Manual support needed during the test

- [ ] Who will try the flow

Agree on the learning check

- [ ] What we will watch or ask

- [ ] Person responsible for recording the evidence

- [ ] Decision and review date
