WORKING SHEETS

Choose what the prototype needs to teach you

A worksheet for the question, fidelity and observation

Rupesh Kumar

Choose one question

- [ ] Customer task

- [ ] Decision this prototype should help make

- [ ] What the team is uncertain about

Name what must feel real

- [ ] Step the person needs to try

- [ ] Information they need to see

- [ ] Interaction that must work

Leave the unnecessary detail out

- [ ] Detail that can remain rough

- [ ] What the prototype does not need to answer

- [ ] Limits of the prototype you must explain

Set the task without giving the answer

- [ ] Situation you will describe

- [ ] Task you will ask them to attempt

- [ ] Help you will avoid giving during the attempt

Plan what to record

- [ ] Action or hesitation to watch for

- [ ] Question to ask after the attempt

- [ ] Record of what happened

Bring the evidence to a decision

- [ ] What the test can reasonably tell us

- [ ] What remains uncertain

- [ ] Change or next test, owner and review date
