This message keeps running.

Brian 2:56 PM

@Linear create a loop that runs whenever a PR is merged:

- Check the linked issue for customer requests.
- Post in this channel with the customers who need follow-up.

One request can start future work.

The instructions need somewhere to live.

MESSAGE
Someone asks

RULE
A loop is saved

RUNS
Work repeats

Official Linear demo / 22 Oct 2026 / frame 00:08

What did we agree to?

Brian 2:56 PM

@Linear create a loop that runs whenever a PR is merged:

- Check the linked issue for customer requests.
- Post in this channel with the customers who need follow-up.

Linear APP 2:57 PM

Loop created. I'll post customer follow-ups here after each relevant merge.

TRIGGER

PR merged

READS

Linear issue

Customer requests

POSTS TO

This channel

Next, I'd look for the owner and pause control.

Those are the details I would inspect next.

Official Linear demo / 22 Oct 2026 / frame 00:12

https://linear.app/changelog/2026-10-22-slack-and-github-loops

Leave a receipt.

A concept to review. This is not a Linear screen.

CUSTOMER FOLLOW-UPS	Proposed record
OWNER	Named teammate
STARTS WHEN	A relevant PR is merged
READS	Linked issue and requests
POSTS TO	Selected channel
ACTIVITY	Open run history

Pause future runs

Open rule

Proposed behaviour: pausing stops future runs.

Messages already sent remain in the activity record.

I'd keep this short and link to the full rule.

Commentary on the official Linear release demo, 22 Oct 2026.
